

POLYESTER SPECIALTY YARN

The Global Innovator

ENGLISH

'ACEPORA-ECO Polyester' is a kind of eco-friendly polyester made by recycling PET bottles and has obtained Global Recycled Standard (GRS) certification

Characteristics

Eco-friendly

Reduced CO2 emission

Energy saving

ACEPORA-ECO Recycled Polyester is an eco-friendly material.

Specifications

- FDY, POY, BK Spec'
- TONOTON Spec' (THIN & THICK YARN)
- ACEFLEX Spec' (Elastic polyester)

Applications

- Knitwear/woven for sustainable apparels

ACEPORA-ECO Recycling System

Rayon, acerate-like material with a deep color and a delicate gloss through new spinning technology

Characteristics

Excellent deep color

Luxurious and delicate gloss

Crisp texture

Specifications

-CBR 55/48, 75/48, 110/48, 120/96, 150/96

Applications

-Blouse, suit, dress, shirts, pants

How it works

Material with excellent stretchability that manifests its high elastic recovery through its spring structure

Characteristics

Stretchability and recovery

Excellent volume and resilience

Excellent drapery

Specifications

-SCY 30/12, 50/24, 75/24, 80/48, 100/24(48), 150/48, 200/48 SD, 80/48, 100/24(48), 160/64, 200/48 FD

*SCY (Self crimped yarn): Elastic Polyester by yarn structure

-CCY 100/48, 135/48, 180/60 FD, 185/60 SD

*CCY (Combined crimped yarn): Intermingled polyester with SCY

Applications

-Blouse, suit, dress, shirts, pants

How it works

Material with differentiated sensitivity designed to make fabric luxurious by giving it a thick & thin effect

Characteristics

Slub effect

Two-tone effect

Linen-like texture

Specifications

-TTD 40/24, 50/24, 80/24, 110/72, 165/48, 300/96 SD
(* TTD : THIN & THICK)

Applications

-Casual wear, shirts, pants and home textiles

How it works

Naturally sensitive material with the feeling of spun yarn manifested through special spinning technology and processing

Characteristics

Natural texture

Sweat absorbent & Quick drying

Non-transparent

Easycare

Specifications

-CLY 50/72 FD

Applications

-Fitnesswear, sportswear, casual wear

How it works

Functional material with the UV protection, see-through prevention, sweat-absorbing & quick-drying, and coolness functions maximized through it's special non-circular cross-section and raw material technology

Characteristics

Cooling & Dry touch

Sweat absorbent and quick-drying

UV Blockage / Non-transparent

Lightweight

Specifications

-FDY 20/24, 40/48, 45/24, 75/48 FD

-DTY 50/48, 75/48 FD

How it works

'AceFresh+' is a polyester functional material which has antibacterial, UV protection, quick absorption and dry after being laundered through unique yarn cross section and antibacterial injection

Characteristics

Antibacterial

Sweat absorbent
and quick-drying

UV Protection

Specifications

-POY 125/72 SD

-DTY 75/72

Applications

-Casual wear, innerwear, sportswear, uniform, bedding

How it works

Aesthetic and functional material
enabled to manifest the
melange effect by applying
different types of polymers

Characteristics

Melange effect

Sweat absorbent
and quick-drying

Excellent
colorfastness
against Laundry

Soft texture

Specifications

-FDY 35/36, 50/36, 75/36 CDC

Applications

-Innerwear, casual wear, sportswear

How it works

ACEPORA

AEROAD

The lightweightness, warmth, and high elastic recovery of the fabric manifested through the formation of a hollow cross-section

Characteristics

Lightweight

Insulation/
Heat retention

Unique texture
(resilience)

Specifications

-FDY 30/18, 60/72 SD

Applications

-Innerwear, Casualwear, Shirts & Pants

How it works

ECO-friendly material designed to allow mutual adhesion between yarns during heat treatment

Characteristics

Outstanding adherence

Excellent shape retention

Eco-Friendly

Specifications

-LMF 20/1, 25/1, 50/24, 70/24, 75/24, 140/48
75/24, 150/48 BK

Applications

-Home Interior materials(Roll blinds, Upholstery fabric)
Interior Materials for Automotive
Industrial uses – Water Filtration

How it works

ACEPORA
